July Newsletter

114 members

To all members of the Black Creek Sportsman's Club,

I pray this letter finds you and your families in good health and cheer.

It is unfortunate that we have had to cancel all our activities to date to adhere to the governor's COVID-19 REOPENING GUIDELINES. It has been a frustrating time for all that we hope will end soon.

On a brighter note, the restroom remodeling is complete and looks great! There are upgrades without taking away from the overall rustic feel of the facility. Heartiest thanks to the crew who worked so hard with me to make this happen: Bob Shoemaker, Joe Zapach, Willie Fields and his boys, Karen and Mark Klingler.

A thank you must also go out to our web master Kim Straus. If you have not logged into the website in a while, you should. Kim has transitioned to a new website application and has been able to make several upgrades to the site contents. A **MUST SEE** is his post of a July 4th tribute to the club, including fireworks and music. It is awesome!

I held June's raffle drawing with Joe Zapach. Congratulations to the winners who are posted on our web page.

The next set of raffle tickets are being mailed to members along with this newsletter. Please return them via the club mailing address.

Your support of the club is especially important during this crisis if we are to continue to provide the best possible club for you to enjoy. Everyone did great with sales last time – **THANK YOU!**

Please continue to make every effort to sell, or buy, your quarterly **required 5 tickets**. We have added a couple extra tickets in the mailing in case you can sell them as well. Extra sales will help to offset expenses for the remodeling of the restrooms. If you cannot sell the extras, **that is ok**, just return the unsold extra tickets with your money and sold ticket stubs. If you return them early, we have time for others to sell them. **Keep up the great work!**

I look forward to seeing you at the earliest meeting date that can be arranged with a reasonable amount of medical safety for all. We are hoping for that meeting to be in July. Stay tuned!

With best wishes,

Don Kile, President BCSC
